

Optimised washing with load-sensing technology

The 600 SensiCare Washing Machine detects load size, adjusting time, water and energy for each individual load, from one kilo to a full load.

Product Benefits & Features

SensiCare - save up to 30% of time, water and energy with load-sensing technology*

SensiCare is a load-sensing technology that detects load size and adjusts the programme in order to save up to 30% of time, water and energy per load.* This ensures precise and tailored washing for every garment.

*Based on internal test of time, water and energy consumption of a 1kg load compared to max load in Cotton cycle 30°C using SensiCare which adjusts the programme based on load size.

Reduce washing time with Time Manager®

Don't wash longer than you need to. Wash your clothes with the adjustable 4-step Time Manager® feature and finish washing cycles in less time.

Steam Hygiene Programme removes 99,99% of bacteria and viruses*

The Steam Hygiene Programme, certified by Swisstatest, combines a wash cycle and steam to remove more than 99,99% of bacteria and viruses* above 60°C. Pollen and allergens are also reduced for hygienically clean clothes after every wash.

* Tested for Staphylococcus aureus, Enterococcus faecium, Candida albicans, Pseudomonas aeruginosa and MS2 Bacteriophage in external test performed by Swisstatest Testmaterialien AG in 2021 (Test Report No. 202120117)

Rapid washing, for quick results

1. The Rapid programme lets you quick-wash your clothes for light cleaning. Take care of 3kg of laundry in just 20 minutes.

Inverter Motor+ is energy efficient and durable

The Inverter Motor+ is more energy efficient than standard Inverter motors thanks to the permanent magnet motor technology.

- Aqualux washing technology - traditional washing for good results with all fabric types
- Maximum spin speed: 1400 rpm
- Spin reduction option - your choice of 500/700/900/1400 rpm
- Water connection - cold fill
