

Optimised washing with load-sensing technology

The 600 SensiCare Washing Machine detects load size, adjusting time, water and energy for each individual load, from one kilo to a full load.

Product Benefits & Features

SensiCare - save up to 30% of time, water and energy with load-sensing technology*

SensiCare is a load-sensing technology that detects load size and adjusts the programme in order to save up to 30% of time, water and energy per load.* This ensures precise and tailored washing for every garment.

Reduce washing time with Time Manager®

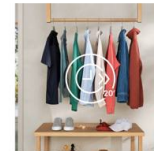

Don't wash longer than you need to. Wash your clothes with the adjustable 4-step Time Manager® feature and finish washing cycles in less time.

*Based on internal test of time, water and energy consumption of a 1kg load compared to max load in Cotton cycle 30°C using SensiCare which adjusts the programme based on load size.

Steam Hygiene Programme removes 99,99% of bacteria and viruses*

The Steam Hygiene Programme, certified by Swisstatest, combines a wash cycle and steam to remove more than 99,99% of bacteria and viruses* above 60°C. Pollen and allergens are also reduced for hygienically clean clothes after every wash.

Rapid washing, for quick results

1. The Rapid programme lets you quick-wash your clothes for light cleaning. Take care of 3kg of laundry in just 20 minutes.

* Tested for Staphylococcus aureus, Enterococcus faecium, Candida albicans, Pseudomonas aeruginosa and MS2 Bacteriophage in external test performed by Swisstatest Testmaterialien AG in 2021 (Test Report No. 202120117)

Inverter Motor+ engineered for precision

Inverter Motor+ is the advanced evolution of the inverter motor. Its permanently magnetized rotor eliminates the need for magnetization, delivering precise control and consistency, and enabling accurate load recognition through a dedicated algorithm.

- Capacity guide: Suitable for a small family.
- Delicates: Gently washes the most delicate of fabrics.
- Aqua control: An internal system which monitors the water level to detect leakage.
- Silk program: Care for your silk items with a gentle wash and adapted spin cycle.
