

A high capacity, symmetrical,
ogee rainwater system that's
Supreme!

Supreme Performance!
Supreme Easy-Fix Installation!
Supreme Competitive Price!

External and internal
fascia bracket

Reliable user-friendly clips

High performance
moulded seals

Choice of centre
or side fixing

Indicator marks on
fittings for fast,
accurate alignment

The Eavemaster Supreme Rainwater System has been designed following extensive research amongst Architects, Specifiers and Installers combined with MFP's experience in rainwater drainage design.

The result is Supreme – a stylish, high-capacity, symmetrical, ogee gutter system which simplifies installation, thereby reducing costs.

Supreme is a high quality, competitively priced system which boasts a number of key features:

- ✓ Symmetrical ogee profile
- ✓ High capacity
- ✓ High performance moulded seals
- ✓ Robust user-friendly jointing clips
- ✓ Choice of external or internal fascia brackets
- ✓ Outlets and unions with centre and side fixing points
- ✓ Indicator marks on fittings for fast, accurate alignment
- ✓ No sharp edges on fittings
- ✓ Multi-positional outlet
- ✓ Colour matched to the Eavemaster Fascia System

Eavemaster Supreme is available in White, Black and Brown and when combined with the Eavemaster Fascia Systems it offers the complete roofline solution. This new gutter system from MFP reigns Supreme in every respect.

Manufactured in Ireland by:

Over 35 years experience in rainwater drainage design.

The Supreme choice of professionals
